Expedition Overview

VIP Everest Expedition is a VIP package which gives people an opportunity to stand on top of the highest summit in the world for an added price. If you want to experience what it feels like to be on the highest point on the planet and have strong economic background to compensate for exploring adventure life and your fear of risks, you can sign up for the VIP Everest Expedition Service offered by 14 Peak Expedition Private Limited. This service facilitates you to experience the feeling of accomplishment that one gets while succeeding in an adventurous sport, all while providing the highest levels of safety and comfort that can be imagined in such a difficult landscape.

We will take the Normal southern route to the summit. We will fly by helicopter from Kathmandu to Lukla (2880 M) and hike down to Phakding. Another day of trek uphill to Namche Bazaar via famous Hillary bridge. After a day of acclimatization around Namche bazaar, we will trek from Namche to Dingbuche (4940 M) and after 2 day of rest we will trek from Dingbuche till to Everest base camp in according to itinerary along with your Climbing Sherpa guide and private cook, who will cook food for you as according to your order whereas for sleep we will do in Lodges. After acclimatizing at basecamp for several days we will approach the summit of Lobuche Peak (6119m) and after completion of Lobuche will return back to Everest base camp. We will move on to Camp I (6,065m) where we will see Khumbu glacier. From Khumbu Glacier, it's around 450m on a gradual slope to Camp II (6,750m) and around 610m to Camp III (7,100m). Camp III is located at the head of Lhotse. From this point onwards, you will reach Camp IV (7,910m) is the last camp before the summit and is used as a staging point for the final push to the summit. This is the last stop before the summit bid, and is the most dangerous part of the climb due to the high altitude and harsh conditions. The summit of Mount Everest is the highest point on the mountain, standing at 29,035 feet (8,848.86 meters) above sea level. It is the goal of all expeditions to reach this point.

Experience in mountaineering (6000 m. /7000 m.) is recommended and required to sign up for this expedition

INCLUDES

- **1. Transportation & Logistics** – Arrival & Departure: Private airport transfers. Member Transport: Helicopter flight Kathmandu ? Everest Base Camp (via Namche if required).
